Your Friends Will be Shocked to Discover That You Learned Secrets of Machine Quilting a Beautiful Family Heirloom Quilt Simply by Watching TV!

We won't tell them. Will you?

Yes, You Can Make A Quilt for Future Generations to Enjoy 100% Guaranteed!

If you've been afraid to start a making a quilt or tackle machine quilting, gotten frustrated at some point along the way, or have given up quilting completely . . . don't blame yourself. I've read the books, seen the patterns, and have experienced the frustration – firsthand – of incomplete directions, wrong methods, and instructions that are so confusing I don't know which way is up, let alone which is the right side of the fabric.

When it comes to **machine quilting**, **all of the books make it sound so easy**. “Just layer your quilt, put your gloves on, and stitch away.” Gloves!? What's that all about?

I've tried machine quilting dozens of times, and found that **it isn't as easy as they say**. For years, **machine quilting has eluded me** even though I've done a fair amount of it.

And I turned to an expert machine quilter for help and advice in my Machine Quilting Adventure. Everything was written down – checklists for setting up your workspace, fill-in-the-blank forms to figure out exactly how much fabric you need, charts for checking bed and quilt sizes, and much more.

My Pain is Your Gain

After more than 16 weeks of cutting, stitching, taking videos, writing and organizing, The Machine Quilting Adventure DVD Mentor is ready so you can **learn how to machine quilt the easy way – by simply watching a video**.

Liz Pilon, Cheboygan, Michigan

But this video goes beyond just machine quilting. You get 5 3/4 hours of great quilting instruction, tips, shortcuts, and secrets for creating beautiful quilts that look like you have been quilting for years, even if this is your first quilt.

From start to finish, you can follow along with the book and make the exact quilt using no extra resources, scouring through other quilting books, taking yet another workshop, searching on the web or making hysterical phone calls to other, more experienced quilters for help.
